LEMA

- [Alpine County: 4 LEMA](#)
- Command post evacuated
- Per State Parks, the fire has expanded and the previous ICP which was located at Fire Station 91 on Hwy. 89 in the town of Woodfords, has been relocated to the following: Douglas High School, 1670 Hwy 88, Minden, NV.

Critical Infrastructure

- Power outages have impacted Markleeville and the EOC's ability to utilize the internet for email communications and public messaging via social media and the county website.
 - On 7/19/2021, County's email is back in service. However, their main server is still down.
- Markleeville Water Company is a non-profit agency. As of 7/18/2021, water plant is still intact, and the tanks did not burn. The power poles to the plant, however, did burn. They will need generators to run the pumps. Musser and Jarvis watershed has been impacted so they cannot treat surface water currently. Most likely this will be the case for a while. They are producing water from their two (2) wells, however. State Water Boards Division of Drinking Water has been notified.
 - The water company is coordinating with State Water Boards, Drinking Water Division, to discuss options for power generation for the pumps before repopulations occurs.
 - As of 1500 hours on 7/19, Water company advised they obtained a generator from another water agency, and it is being delivered on 07/19/21.
 - Surface water has been impacted, but they are producing water from their two wells. There are no requests for assistance at this time.
- There is a threat to the Hawkins Peak radio tower in Alpine County. This serve radio communications for all Alpine County law enforcement and Douglas County, NV (including CHP, State Parks, and fire agencies). A request for structure protection was made by Alpine Sheriff to USFS on 07/19/21.

WEATHER KEY POINTS

07/20/21 - 07/26/21

Tuesday-Monday

- Critical fire weather conditions will continue Tuesday and Wednesday in northeastern California due to strong gusty winds and low relative humidity
- A decrease in thunderstorm activity is expected for Tuesday and Wednesday, with any storms expected to be isolated in nature and primarily over the Sierra and Southern Region mountains
 - Additional moisture could potentially move into the state late in the week or over the weekend, and bring more scattered coverage of showers and thunderstorms
- Fire weather conditions will remain elevated through much of the week, with dry conditions continuing in most locations and locally breezy winds possible, especially in the mountains and foothills
- Low to moderate heat risk impacts will continue across primarily inland portions of Southern Region, with a bit of a cooling trend expected for the end of the week
